

ESPEN EUROPEAN DIPLOMA IN CLINICAL NUTRITION AND METABOLISM

ESPEN's educational activities have constantly been strengthened over the last decade. Web-based life-long learning (LLL) programme designed to assist health care professionals to improve their skills in nutritional assessment and care of patients benefits a great success.

Since 2005 more than 9100 users were registered to the LLL programme online, and around 10500 were participating in more than 250 live sessions. The massive increase of courses participants confirms the need for such an action.

During the 2010 ESPEN congress in Nice, the first ten LLL participants have successfully passed the examination.

ESPEN would like to honour these clever and courageous colleagues

1. Waffa Ayesh
2. Lusia Maria Lotrean
3. Maria Theodorakopoulou
4. Kinga Szczepanek
5. Pencho Tonchev
6. Robert Rutsaert
7. Nanny Soetedjo
8. Boris Tablov
9. Carla Vartanian
10. Stanislav Klek

LLL programme offers an access-free education and allows collecting educational credits. The system includes around 100 modules developed by more than 120 European experts in nutrition and metabolism, members of ESPEN Faculty.

Thanks to the efforts of LLL team and ESPEN Faculty this achievement was approached.

First ESPEN European diplomates in Clinical Nutrition and Metabolism

1st. Row - Waffa Ayesh, Carla Vartanian, Maria Theodorakopoulou,
Nanny Soetedjo, Lusia Maria Lotrean

2nd. Row - Boris Tablov, Stanislav Klek, Pencho Tonchev, Robert Rutsaert

3rd. Row - LLL director - Prof. Remy Meier, Prof. Regina Komsa-Penkova,
Prof. Claude Pichard, Prof. Alastair Forbes

Before the examination:

From left to right - Boris Tablov, Waffa Ayesh, Carla Vartanian, Lusia Maria Lotrean, Kinga Szczepanek, Prof. Olle Ljungqvist, Prof. Regina Komsa-Penkova, Nanny Soetedjo, Pencho Tonchev, Prof. Remy Meier, Maria Theodorakopoulou, Robert Rutsaert
